Rodgau, March 2024

Warranty conditions of RP-Technik GmbH

Up to 60 months warranty from date of delivery:

Extended warranty covers housing, electronics, LED as well as LiFePO4 batteries. Full warranty replacement or free repair at our factory. Failure for the purposes of this warranty condition includes. LED assemblies that fall below rated luminous flux 70% (L70) during the warranty period.

Up to 60 months warranty from date of delivery for the following luminaires:

- All luminaires for central power supply systems with and without monitoring modul
- All single-battery luminaires with LiFePO4 accumulator (SC, WB and WL versions in all colours)

Up to 24 months warranty from date of delivery for the following product groups:

- Single-battery luminaires with NiMH accumulator
- Central power supply systems
- Lead-acid batteries
- Products for general lighting
- CASAMBI® light control modules

Depending on the product group, significantly longer warranty periods apply to the products in our photovoltaic portfolio. You can find these currently in our brochures / data sheets on our website www.rp-group.com.

Warranty limitation:

All products must be operated in accordance with the instructions in data sheets, operating instructions and the technical data issued by RP-Technik GmbH as well as the applicable standards. For products proven to have failed due to a material or manufacturing defect within the warranty period, RP-Technik GmbH will replace the same free of charge. In this case RP-Technik GmbH reserves the right to use an equivalent or higher quality successor product.

RP-Technik GmbH reserves the right to decide on the legitimacy of the warranty claim itself. This requires a free return of the complete product (luminaires) for fault analysis to our factory: RP-Technik GmbH, 63110 Rodgau, Hermann-Staudinger-Strasse 10-16, Germany.

Warranty services will only be provided if the defective product is submitted within the warranty period together with a copy of the invoice or serial number with model designation. The warranty period refers exclusively to the delivery date of the initial delivery. The warranty is void if the markings applied to the product, such as model name or serial number, have been altered, erased, removed, or made illegible.

The warranty does not cover any of the following:

- Costs of transport, assembly or disassembly of the product, nor the associated risks.
- Any changes common to light-emitting diodes, such as loss of brightness (up to L70) or change in colouring.
- Damage or changes to the product as a result of improper use.
- External influences such as ambient climate (temperatures outside the specified values), aggressive ambient conditions (e.g. steams, detergents), overvoltage or undervoltage damage.
- Connection or use of the product for a purpose other than its intended use.
- Non-compliance with the instructions, data sheets and operating manuals provided by RP-Technik GmbH.
- Connection or use of the product in a way that contradicts the applicable technical or safety regulations or standards.
- Changes to the surface finish, appearance, and radiation behavior due to dirt, UV radiation and other external influences.

Valid from March 2024
