

Art.-Nr: DCM32 module de circuit

The DCM32, DCM42 and DCM62 circuit modules are powerful expansion modules for the safety lighting systems of the multiControl plus, midiControl plus, miniControl XL plus, miniControl plus and microControl plus series. With two separately monitored circuits each, they provide a reliable supply with a maximum output current of 1 A (DCM12E), 3 A (DCM32), 4 A (DCM42) or 6 A (DCM62).

Thanks to integrated individual luminaire query, self-calibrating circuit monitoring and earth fault and fault voltage monitoring (when the circuit is not active), the modules ensure maximum operational reliability. All relevant status data can be conveniently retrieved at any time on the central computer via the integrated INFO button.

Ideal for standard-compliant, flexible and maintenance-friendly emergency lighting.

DONNÉES TECHNIQUES

Matériau	Aluminium, Matière plastique
Couleur du boîtier	Anthracite
Tension d'entréeAC	230 V
Fréquence d'entrée	50 / 60 Hz
Profondeur	174 mm
Largeur	35 mm
Hauteur	128 mm
Poids	0.26 kg
Numéro du tarif douanier	85389091

Au: 05.06.2025 - Sous réserve de modifications techniques et d'erreurs.
