MAX. 32 MAINS CIRCUITS / 1.500 W, 1H / 640 LUMINAIRES

The Low Power System miniControl XL plus closes with a maximum output of 1.500 W the gap between the smaller powered miniControl XL plus and the big brother midiControl plus. Through the principle of decentralization per fire compartment, similar to a single battery system, there will be no costs for E30-powerlines and their installation. The miniControl XL plus is installed in an operating room in each fire compartment.

Batteries are not included and have to be ordered separately.
